PROFESSIONAL EXPERIENCE

Company	Saratoga Software
Dates	February 2023 – November 2023
Position	Software Engineer
Client/s	The Foschini Group (TFG)
Tech Stack	.NET 4.5/7

What I Do/Did:

- Maintained and enhanced the incident management system for the client (TFG).
- Upgraded .NET Framework 4.5 projects to .NET 7 at the client.

Reason for Leaving Company: Left to pursue further studies, however this didn't come to fruition.

Company	Katchmi Technologies (acquired by Digicall)
Dates	December 2018 – January 2023

Position	Full Stack Software Developer
Client/s	Digicall
Tech Stack	.NET AJAX ASP HTML Razor C# CSS JavaScript jQuery Xamarin Android Studio SQL Server

What I Did:

- Designed, developed, and maintained web applications in .NET technologies – both front-end and back-end (AJAX, ASP, HTML, Razor, C#, CSS, JavaScript, jQuery) – for clients requiring software and services in the insurance industry.
- Designed and maintained mobile applications in Xamarin and Android Studio.
- Worked within Microsoft SQL Server to maintain and enhance the data framework.
- Worked closely in a small team to analyse and develop requirements received from clients and to meet daily project goals in an Agile environment.
- Wrote technical specifications, performed code reviews, and oversaw junior developers.

Reason for Leaving Company: Company restructuring.

Company	Sikadi Tech
Dates	January 2018 – November 2018
Position	Frontend Developer
Tech Stack	HTML 5 CSS TypeScript Vue.js

What I Did:

- Worked closely in a small team to develop the company's website using HTML 5, CSS, TypeScript, and Vue.js.

Reason for Leaving Company: Wanted broader experience in a more established company.

ADDITIONAL CERTIFICATES/COURSES/TRAINING

Qualification	Dates	Institution
React – The Complete Guide 2023 (incl. React Router & Redux)	2023	Udemy

TECHNICAL PROFICIENCY

- Independent Work & Team Collaboration:
 - Able to work autonomously without direct supervision.
 - Dedicated team member with strong collaborative skills in technical environments.
- Interpersonal Communication:
 - Demonstrated ability to communicate effectively with clients.
 - Strong interpersonal skills for fostering positive working relationships.
- Data Management Tools | Object-Oriented Programming Languages
- Design Patterns | RESTful Web Services | SOAP Web Services
- Front-end: React.js / Next.js / HTML / CSS / Razor / ASP.NET / jQuery
- Back-end: C# / PHP / Java / Node.js
- Database Management: SQL Server / Oracle / MySQL / PostgreSQL
